OUR VALUES: Integrity, Innovation, Sustainability and Respect.

Internship Opportunity: French Beans Farming

Position: Agricultural Interns
Location: East-Kayonza-Mwili
Duration: 1-3 months
Start Date: 01/04/2025

About Us:

Green Agribusiness Network in Africa and HEZA Ltd (GANA HEZA) is a leading agricultural organization committed to advancing sustainable farming practices. We specialize in the production and cultivation of high-quality French beans, a highly nutritious and marketable crop. Our mission is to empower young farmers and promote innovative farming techniques to improve yields, efficiency, and sustainability.

As part of our youth empowerment program, we are offering an internship for young, dynamic, and motivated individuals who are passionate about agriculture and eager to learn more about French beans farming.

Internship Overview:

This internship provides an exciting opportunity for hands-on experience in French beans farming. Interns will work closely with our experienced agricultural team to learn the entire farming cycle of French beans, from seed selection to harvesting. You will also be involved in monitoring crop health, learning about sustainable farming practices, pest management, irrigation techniques, post-harvest handling, and market access.

"Innovating for a Better Tomorrow"

Responsibilities:

1. Assist in preparing land for French beans planting.
2. Participate in the planting process and ensure the optimal seed spacing and depth.
3. Learn about irrigation systems, soil management, and water conservation techniques.
4. Monitor crop growth and health, identifying pests and diseases.
5. Assist in implementing pest control measures, both chemical and organic.
6. Support in harvesting and post-harvest handling of French beans.
7. Record and maintain farm data related to crop yields, weather patterns, and growth rates.
8. Gain exposure to the commercial aspects of French beans farming, including packaging and market distribution.
9. Contribute to sustainability efforts, including soil health management and eco-friendly farming practices.

What We Offer:

1. **Hands-on Experience:** Learn directly from experienced farmers and agricultural experts.
2. **Mentorship:** Guidance and advice on building a career in sustainable agriculture.
3. **Training:** Workshops and seminars on best practices in French beans farming and agriculture.
4. **Networking:** Build connections with industry professionals, fellow interns, and potential employers.
5. **Certification:** A certificate of completion upon successful internship tenure.

Note: There is no stipend allowance for interns.

Eligibility:

Youth aged between 18 – 28 years

Strong interest in agriculture and sustainable farming practices.

No prior experience necessary; however, those with basic knowledge of farming will be given preference.

Must be proactive, willing to learn, and ready to work in outdoor field conditions.

Qualifications (Preferred but Not Required):

A background or coursework in agriculture, horticulture, or a related field.

How to Apply:

Send your CV via email to ganahenza16@gmail.com
